

# PARTSMART® 8.0 : The best even better

**Eliminates repetitive verification entry.** The need to enter a new verification code with each update has been virtually eliminated. As few as ONE License Key for all of your manufacturers will be needed each year!

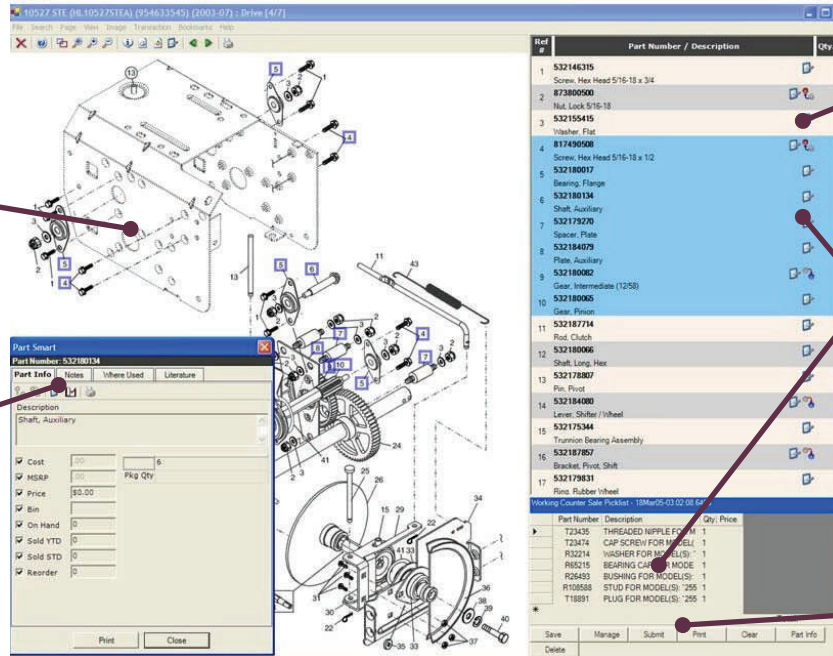

**Expanded diagram display.** 60% more space has been allocated to the diagram to make it easier to find the part you are looking for.

**Faster access to key information.** From a single screen, you can instantly view and/or edit where used, literature, notes and parts information for any part.

**More timely catalog updates via the Internet.** PartSmart 8.0 supports the capability to receive interim updates to manufacturer catalogs via the Internet, including illustrations, parts, pricing and supersessions.

**More control of diagram display.** A simple right click on your mouse and you can change the display of the diagram . . . Enlarge, rotate, zoom in, zoom out and more.

**Easier access to the information you need.** Up to 30% fewer mouse clicks will get you to the information you need to efficiently and cost-effectively run your dealership.

**At-a-glance notification of Supersessions.** A Supersession Icon alerts you to a supersession for a part number.

**Automatic creation and display of Pick Lists.** Click on the Add to Pick List icon and create a Pick List automatically. The Pick List including part number, description, price and total at the IPL screen will immediately display. With a single click, view an expanded Pick List that includes manufacturer and bin location.

**Simplified Part Search.** Click on a model, enter a part number or description and PartSmart will display all available information.

**More efficient Pick List management.** A simple click on the navigation bar and you can Save, Manage, Submit, Print, Clear, Delete and View Part Info for a Pick List.

**Enhanced Search Capability.** PartSmart 8.0 allows you to search using "begins with" or "contains" to reduce the number of characters you need to key in.

**FAST. EASY. PROVEN.** PartSmart 8.0 has been developed to make it easy, easy, easy for you to use. Experienced PartSmart and novice users will be able to be up and running painlessly!

**"I didn't think it was possible to make PartSmart even easier to install and use, but PartSmart 8.0 is!"**
